ORIGINAL: ENGLISH

LETTER DATED 11 APRIL 1985 FROM THE PERMANENT REPRESENTATIVE OF
THE ISLAMIC REPUBLIC OF IRAN TO THE UNITED NATIONS ADDRESSED TO
THE SECRETARY-GENERAL

Upon instructions from my Government and pursuant to my letter of 26 March 1985 (A/40/209) I have the honour to transmit herewith a detailed table of the anti-human chemical attacks by the criminal Iraqi régime against the Islamic Republic of Iran between 13 March 1985 and 20 March 1985. Within the latter period, the Iraqis used 77 bombs, 23 rockets and approximately 639 artillery shells as the means of delivering chemical agents. These attacks resulted in the martyrdom of 32 and injured 2,231 people.

Do you not agree, Excellency, that the continued Iraqi violation of the 1925 Geneva Protocol, and the ease with which the Ba'athist régime of Iraq continues to commit the despicable crime of the deployment of chemical weapons, merely reflect the callousness and the indifference of the Security Council in its unwillingness to take appropriate preventative measures against Iraq in this respect? Please allow us to remain confident that Your Excellency will do your utmost to convince the international community to take effective measures in condemnation of such abhorrent crimes of the Iraqi régime.

It would be highly appreciated if this letter and its annex were circulated as a document of the Security Council.

(Signed) Said RAJAIE-KHORASSANI
Ambassador
Permanent Representative

Amor		LOCATION	TIME AND DATE	MODE OF DELIVERY	No. OF BOMBS/ SHELLS	SURFACE AREA CONTAMINATED	TYPE OF CHEMICAL AGENT
West of Northern Island	15 March, 1985 16:30 hours	aerial bombardment	6 bombs	9 sq. Kms.	Nerve agent Blood agent
