ECONOMIC COMMISSION FOR LATIN AMERICA

First Session

Resolution of 25 June 1948 on
RELATIONSHIP BETWEEN THE SOLUTION OF ECONOMIC AND
PUBLIC HEALTH PROBLEMS

THE ECONOMIC COMMISSION FOR LATIN AMERICA

CONSIDERING that a direct relationship exists between the solution of economic and public health problems, and that it is advisable to obtain the co-operation of the specialized agencies engaged in the solution of public health problems;

CONSIDERING that the World Health Organization, and the Pan-American Sanitary Bureau have expressed their desire to study such problems in conjunction with this Commission, in order to give priority to urgent problems which call for immediate action in the execution of public health programmes in Latin America; and

CONSIDERING that Rules 8 and 9 of the Rules of Procedure provide that the provisional agenda for any session shall include items proposed by specialized agencies, after consultation with the Executive Secretary;

RESOLVES to thank the World Health Organization and the Pan-American Sanitary Bureau, to accept their offer of co-operation in connection with studies to be conducted by the Commission, and to invite them to submit to the Commission, before the next session, a concrete programme of co-operation on problems which justify such co-ordinated action.
