In view of the State party's next periodic report, which was due in 2013, please indicate the measures taken by the State party to address 17 of the complaints received by the national human rights institution and to respond to the institution's request to visit the custody centre and the reform and rehabilitation centre.

4. Please indicate what measures have been taken to implement the 18 recommendations made by the Office of the Ombudsman to the Government of Bahrain following its visit to Juw detention facilities, in particular regarding the issue of overcrowding in Juw rehabilitation and custody centre. Please inform the Committee about the specific measures taken, in law and in practice, to ensure an improved sanitary environment aimed at reducing the risk of disease and deaths in custody.

5. How does the State party ensure the impartiality and independence of the members of the Prisoners' and Detainees' Rights Commission that was established by Royal Decree No. 61/2013? Please describe the measures taken to ensure the installation of surveillance cameras in all the facilities of Dry Dock detention centre and to increase the number of its medical personnel. In the light of the recommendations of the Bahrain Independent Commission of Inquiry, has a complaint mechanism that ensures the privacy and the protection of detainees been put in place? If so, please describe its functioning.

6. Attorney General resolution No. 8 of 2012 created a Special Investigation Unit to investigate allegations of torture and other forms of ill-treatment. Please comment on the non-governmental information to the effect that the Unit does not meet the requirements of independence and impartiality necessary to effectively monitor investigations. Please also indicate whether arrangements have been made or are foreseen to ensure that the methodology used by the Public Prosecution to prepare its periodic public reports complies with the Manual on the Effective Investigation and Documentation of Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment (Istanbul Protocol). Please provide detailed information on the outcome of investigations on the nine cases of deaths in custody allegedly involving the responsibility of members from the security forces, which were mentioned in the first report of the national human rights institution, including the prosecutions and sentences handed down.

7. In the light of recommendation No. 1715 of the Commission of Inquiry and Royal Order No. 45 of 2011 establishing a national commission to follow up the recommendation of the Commission of Inquiry, please provide information on the measures taken and the procedures put in place by the national commission to achieve the desired results. 10. Further to the Committee's earlier list of issues prior to reporting (CAT/C/BHR/Q/2, para. 16), please provide information on the treatment of juveniles in detention, in particular:

(d) Whether solitary confinement is expressly banned for all minors, that is persons under the age of 18;

(e) The allegations that some minors are tried before criminal courts rather than juvenile courts as required by juvenile justice provisions; and whether the State party intends to review those cases and quash or commute the sentences handed down;

(f) The legal minimum age of criminal responsibility, in the light of allegations that juveniles may be prosecuted from the age of 7 and despite the fact that deprivation of liberty is not permitted for children under 15 years of age.

Please provide information on the reforms undertaken to ensure protection against intimidation and reprisals for the detainees who report constraints or other obstacles.

12. With regard to the first report of the national commission established to follow up on the recommendations of the Bahrain Independent Commission of Inquiry, please indicate whether recommendation No. 1722 (g) of the report of the Commission of Inquiry that an audio-visual recording of all official interviews with detained persons be made has been implemented. Have the human rights defenders who had been peacefully exercising their right to freedom of opinion and expression since the 2011 uprising and who were sentenced in court on the grounds of "attending illegal gatherings" been released? Please provide information on those who have been released and those who are still detained and on the charges against them. Furthermore, please indicate the measures taken to ensure the protection of human rights defenders against threats and reprisals.

Please inform the Committee about the outcome of the convictions and sentences that were first rendered by the National Safety Court, then finally reviewed in ordinary courts, as stressed in recommendation No. 1720 of the Bahrain Independent Commission of Inquiry, including data on the number of releases, dropped charges, convictions and length of any remaining sentences. What steps have been taken to ensure due respect for the fundamental guarantees of a fair trial before the military court, in line with international standards? With regard to the decision of the Bahrain Court of Appeal on 29 May 2014 to uphold the 15-year sentence against Naji Fateel, a member of the Bahrain Youth Society for Human Rights, please comment on reports that the inadmissibility of coerced evidence was disregarded during the trials, despite allegations of mistreatment of defendants by the State party's law enforcement officials.
