Overall orientation

4.1 The overall purpose of the programme is to support the maintenance of international peace and security through the deployment of peacekeeping operations in accordance with and by authority derived from the principles and purposes of the Charter of the United Nations. The mandates of the programme are provided in relevant resolutions of the Security Council and the General Assembly.

4.2 The programme comprises the Department of Peacekeeping Operations and the Department of Field Support. The Department of Peacekeeping Operations closely coordinates four interdependent and complementary subprogrammes (operations, military, rule of law and security institutions, and policy, evaluation and training) and integrates cross-cutting responsibilities in the planning and support of peacekeeping operations and special political missions under its direction. The Department of Field Support coordinates two subprogrammes for the provision of administrative and logistics support services to field-based peacekeeping and special political missions. The programme also comprises two peacekeeping missions: the United Nations Truce Supervision Organization and the United Nations Military Observer Group in India and Pakistan.

4.3 The Department of Peacekeeping Operations directs, manages and provides political and policy guidance and strategic direction to all operations under its responsibility, which comprise all traditional and multidimensional peacekeeping operations with military and/or police components and which may include elements of peacemaking and peacebuilding, as well as certain special political missions as approved by the relevant intergovernmental bodies. It also leads the integrated assessment and planning process for new and existing Department-led operations.

4.4 The Department of Field Support provides administrative and logistical support services to United Nations peacekeeping operations, special political missions and other field presences as mandated, in the areas of human resources, finance and budget, conduct and discipline, logistics and information and communications technology.

4.5 To implement the programme, the Departments will work in an integrated and cohesive way through joint departmental decision-making bodies and shared resources under a unified vision, direction and set of guiding principles. The Departments will ensure an integrated United Nations approach in countries where integrated peacekeeping missions are deployed alongside United Nations agencies, funds and programmes through integrated assessment and planning that reflects a shared vision and agreement on common objectives and results as well as clarity of the respective roles and responsibilities. Both Departments will continue to pursue greater coordination, within existing mandates, with internal partners, as well as with external partners, including international financial institutions and regional organizations, to enhance the ability of the United Nations to maintain international peace and security. Sustainable progress on security, national reconciliation and development need to occur in parallel, given the interconnected nature of those challenges in countries emerging from conflict. Regional and subregional approaches to peacekeeping and political strategies for multiple operations will also continue to be pursued when appropriate.

4.6 In that context, the Department of Peacekeeping Operations, the Department of Field Support and other engaged departments and organizations will plan and conduct

United Nations peacekeeping activities in a manner that facilitates post-conflict peacebuilding and the long-term prevention of the recurrence of armed conflict, in coordination with the Peacebuilding Commission. To increase the programme's effectiveness, policy development on and evaluation of the application of peacekeeping best practices and lessons learned will continue, as will emphasis on greater unity of effort and tailored training for all peacekeeping personnel.

4.7 In carrying out their activities during the biennium 2018-2019, the Departments of Peacekeeping Operations and Field Support will focus on the following strategic, operational and support objectives: continuing the reform and revitalization of peacekeeping in line with relevant recommendations of the High-level Independent Panel on Peace Operations; strengthening the strategic and operational planning, deployment, management and transition of United Nations peacekeeping operations; facilitating a shared understanding and a coherent approach among the Secretariat, Member States and other stakeholders on the future direction of United Nations peacekeeping, as well as individual operations in other conflict situations; increasing the efficiency and effectiveness of United Nations peacekeeping operations; and continuing to strengthen and professionalize institutional capacity to analyse and meet ongoing strategic and operational challenges.

4.8 The Departments will provide information to Member States on all phases of peacekeeping operations, paying particular attention to the requirements of troop- and police-contributing countries that need to make informed decisions about their engagement in United Nations peacekeeping. The programme will aim to keep stakeholders, including Member States, informed of field support issues. In an integrated manner, special attention will be given to the safety and security of personnel in the field, and careful consideration will be given to gender and geographical balance in the staffing of operations.

4.9 The Department of Peacekeeping Operations will continue to focus its efforts on strengthening mission planning and oversight; implementing specific Security Council mandates, including those related to protecting civilians, in accordance with the purposes and principles of the Charter and basic principles of peacekeeping (consent of the parties, impartiality and non-use of force except in self-defence and in the defence of a mandate authorized by the Security Council); and pursuing a capability-driven approach to identifying, developing and using peacekeeping resources.

4.10 Programme strategies and plans will be undertaken to establish, manage and direct peacekeeping operations and develop the capacities required to address a wide variety of conflict and post-conflict situations. A rapid and effective response to Security Council and General Assembly mandates is crucial for supporting the implementation of peace agreements between the parties to a conflict. Mandates may include monitoring ceasefires and buffer zones; protecting civilians; disarming, demobilizing and reintegrating ex-combatants; reforming military establishments; training, advising and monitoring police forces; creating security conditions conducive to the return of refugees and internally displaced populations; promoting electoral and judicial reform and assisting civil administrations; facilitating political processes to consolidate peace and strengthened State authority; coordinating economic rehabilitation and mine-clearance programmes; and facilitating the delivery of humanitarian assistance.

4.11 Capitalizing on reforms introduced with the global field support strategy, the Department of Field Support will focus on achieving operational excellence in the delivery of rapid, effective, efficient and responsible support solutions for peacekeeping missions. In striving for excellence, the Department will focus on ensuring consistent, reliable and sustainable results for internal clients and external stakeholders. To manage progress, the Department will strengthen its ability to direct, monitor and evaluate its operations against a balanced set of objectives, performance indicators and targets, primarily aimed at enabling mandate delivery, improving client satisfaction, promoting prudent resource utilization, strengthening compliance with United Nations norms and values and delivering in accordance with rules and regulations. To drive necessary improvements, the Department will also implement key priority initiatives, including enhanced supply chain management, improved technological solutions, stronger environmental management and reinforced efforts to combat misconduct, including sexual exploitation and abuse.

4.12 Under the programme, the Departments will also provide substantive and technical support to the Special Committee on Peacekeeping Operations, including follow-up on decisions related to peacekeeping operations taken by the Security Council and the General Assembly. The Departments will implement the recommendations of the Special Committee, as endorsed by the Assembly.
