Geneva, 24 January 1985

Mr. Kurt Herndl  
Director, Centre for Human Rights  
United Nations Office at Geneva

Subject: Israeli practices affecting human rights in the occupied Palestinian territories during the year 1984

The Israeli occupation authorities are continuing to violate human rights in the occupied Palestinian territories in disregard of the resolutions of the United Nations and its Commission on Human Rights which, for many years, have been calling upon Israel to refrain from those violations which they have strongly condemned during successive sessions. Notwithstanding the various resolutions of the Commission on Human Rights and, in particular, the resolutions adopted at its fortieth session in which it strongly condemned Israel's inhuman practices against Palestinian citizens in the occupied Palestinian territories in violation of the principles set forth in the Charter of the United Nations, the Universal Declaration of Human Rights and the Geneva Conventions of 1949, the continued engagement of the Israeli occupation authorities in those practices during 1984 constitutes a flagrant and deliberate violation of the principles of the Charter of the United Nations and the Universal Declaration of Human Rights and a shameful disregard of all the resolutions of the United Nations and the Commission on Human Rights in that regard. In view of this extremely grave situation which poses a serious threat to international peace and security, effective action should be taken to protect human rights in the occupied Palestinian territories, thereby preserving the prestige of the international community, as represented by the United Nations and its specialized agencies, in the face of Israel's nonchalant disregard for its principles and resolutions.

In this connection, I am transmitting to you herewith some examples that constitute a representative but far from exhaustive list of Israeli practices affecting various aspects of human rights in the occupied Palestinian territories during the year 1984, hoping that this memorandum will be distributed to the distinguished members of the Commission on Human Rights at its forty-first session that is due to be held from 4 February to 15 March 1985.

I take this opportunity to renew to you the assurances of my highest consideration.

The occupation authorities also confiscated a further 12 dunums at Al Ta'amreh, 11 dunums at the village of Sharara, 2,000 dunums at Bettillo, 1,000 dunums east of Yatta, 7 dunums of agricultural land in Wadi Tuffah at Hebron, 2,000 dunums in the Sahl Al Akhdar area of Nablus, 1,200 dunums in Kafr Al-Labad at Tulkarm, 2,000 dunums at Halhoul, 10 dunums at Qutna, 20,000 dunums in the Tulkarm area, 2,000 dunums at Kafr Ne'ma, 300 dunums at Annata, 100 dunums at Khirbat Battir, 1,300 dunums at Mazra'a Qibliya, 1,000 dunums at Bir Zeit, thousands of dunums at Yatta, 1,500 dunums at Deir Qiddis, 5,000 dunums at Deir Dibwan, 1,200 dunums at Shuyukh Al Arroub, 200 dunums of land north of Gaza and 2,450 dunums of land at Beit Lahia.

#### Zionist colonization and the building of settlements

The Israeli occupation authorities are continuing to build colonial settlements in Palestinian territory notwithstanding repeated condemnation by the United Nations which has called for the cessation of the establishment of these Jewish settlements which constitute an obstacle to peace based on justice in the region. The total number of settlements built so far amounts to 159 settlements in the West Bank and 12 settlements in the Gaza Strip, in addition to ten residential quarters established around the occupied city of Jerusalem. The pace of colonization increased by 60 per cent this year, since the Government of Israel approved the establishment of 62 settlements only last year.

The large-scale escalation during this period is illustrated by the intensification of colonization operations and the frantic activities undertaken in various forms to acquire land through confiscation, de facto occupation or other improper methods. In order to facilitate the seizure of land by force, Colonel Uri Ur, Commander-in-Chief of the Israeli central region issued a decree depriving the West Bank courts of competence to hear cases concerning land, thereby invalidating all decisions delivered by these courts in favour of Arab landowners. During the year 1983/1984, the Israeli Government allocated about \$US 470 million to the implementation of its settlement plans. The medium-term objective, up to 1986, is to build 57 additional new settlements in the West Bank. With regard to judaization, the Israeli authorities have given Jewish terrorist groups a free hand to murder and terrorize Palestinian citizens in the cities of Hebron and Jerusalem. Zionist terrorists set fire to the central market and a number of Arab buses in the city of Hebron which was placed under a curfew in the aftermath of the massacre that occurred on the Islamic University campus in which dozens of Palestinian students were killed by Jewish terrorist bands enjoying the protection of the occupation authorities.

All of these incidents occurred after the establishment of the Kiryat Arba settlements and the conversion of a large part of the Haram Al Ibrahimī at Hebron into a Jewish synagogue. In the city of Jerusalem, judaization operations continued in various fields. The over-all objective of these operations is to judaize the entire city pursuant to the "basic law" concerning the annexation of Jerusalem promulgated by the Israeli Knesset on 30 July 1980.
