8. Reaffirming their commitment to deepening the integration process in West Africa, the Heads of State and Government, after deliberations, endorsed the main recommendations contained in the different reports, and then considered the following specific issues.

#### **On West African economic performance**

9. The Authority welcomed the progress made in some Member States, nearing double-digit growth rates, but expressed concern about the region's poor performance due mainly to the combined negative effects of the fall in oil prices since 2014 on the fiscal balance of oil-exporting countries, particularly Nigeria, deteriorating prices of other commodities, especially mineral ores as well as the fragile political situation in some countries.

10. In this respect, the Authority urged Member States to initiate the necessary structural reforms and take appropriate economic and financial stimulus measures in order to be less vulnerable to commodity price fluctuations and improve their economies' resilience to exogenous shocks.

#### **On regional integration and development matters**

##### *Concerning free movement of persons and goods*

11. The Authority is concerned about the continuing obstacles to free movement of persons and goods in the Community.

12. The Heads of State and Government invite Member States to take all the necessary measures to strictly implement all the provisions of the Protocol on free movement of persons and goods, right of residence and establishment.

13. The Authority welcomes the setting up of the Presidential Task Force on free movement, and urges the Task Force to recommend as soon as possible innovative and effective measures to curb the scourge.

14. It directs the Commission to intensify awareness creation for the Community citizenry and regularly organize joint sensitization meetings between border security services and the local population.

*Concerning agriculture and water resources*

15. The Authority took note of two key initiatives underway, namely the finalization of the second phase of the National Agricultural Investment Programmes in Member States and the fostering of cooperation between the State of Israel in the areas of agriculture and rural development. The Authority approves the participation of the Prime Minister of Israel, H.E. Benjamin Netanyahu as an Observer in the next ECOWAS Summit where he would make a presentation on the experience of his country in the agricultural sector.

16. The Authority further endorsed the approval of the Council of Ministers regarding the decision of the African Union to transfer the Regional Integrated Development Support Programme for the Fouta Djallon Highlands to ECOWAS, given its importance for the Community as the watershed for most of the major rivers within the Community.

**On infrastructure development**

17. The Authority emphasized the need to develop road, railway, air and maritime infrastructure necessary for boosting intra-Community trade, to enhance development prospects and to assist in the fight against poverty. In this regard, it urged Member States to pursue efforts aimed at encouraging the structural transformation of the region's economies and infrastructure development.

*Concerning the holding of the roundtable for the Community Development Programme*

18. The Authority took note of the high-level consultations undertaken by the Commission, culminating, on the one hand, in the Ivorian Authorities' decision to hold the Community Development Programme roundtable by the end of March 2017, and on the other hand, in the acceptance of the African Development Bank to lead and mobilize effective participation of other partners in the process.

**On institutional matters**

*Concerning the ongoing institutional reforms*

19. The Authority took note of ongoing institutional reforms in the Commission and other ECOWAS Institutions. It stressed the need for the reforms to take account of the economic and financial situation within our region thus paving the way for the establishment of cost effective, efficient and sustainable structures for the Community.

20. The Authority commends the President of the Commission for the cost containment measures adopted for running the affairs of the community and encouraged him to continue in his efforts at controlling community expenses.

21. The Heads of State and Government adopted the Supplementary Act on the enhancement of powers of the ECOWAS Parliament to enable the Parliament, on a gradual basis, to perform the traditional roles of a Parliament. The Supplementary Act empowers the Parliament to have mandatory referrals on a number of Community policies and programmes as well as mandatory assent or opinion on the matters referred to it.

*As regards resource mobilization for funding Community programmes*

22. The Authority commends the Commission for its efforts at embarking on other innovative methods of mobilizing resources for Community activities through the expansion of its partnerships.

23. Member States have been urged to quickly pay their call-up capital and support the ECOWAS Bank of Investment and Development in the mobilization of concessional resources from financial partners to fund infrastructure projects.

**On the Economic Partnership Agreement and the Common External Tariff**

*Concerning the Economic Partnership Agreement*

24. The Authority took note of the ratification of the Interim Economic Partnership Agreements by Ghana and Côte d'Ivoire in order to continue to preserve preferential access to the European market beyond 1 October 2016. The Authority urges Member States that have not signed the Economic Partnership Agreement yet, to do so, in order to eliminate the existence of multiple trade regimes in the region with a view to consolidating our regional integration agenda.

*Regarding the Common External Tariff*

25. The Authority welcomes the progress made in the implementation of the Common External Tariff, especially the validation of regulations aimed at facilitating its implementation. To this end, it urges Member States that are yet to do so, to fast-track the implementation of the Common External Tariff, and directs the Commission to provide them with the needed support.

31. The Authority expresses concern over the serious humanitarian situation occasioned by Boko Haram attacks in North-East Nigeria, affecting 14 million people, 7 million of whom require humanitarian aid, the majority being children. It regrets the high number of displaced people and refugees in Nigeria, Niger, Cameroon and Chad. The Authority commends the Governments of Nigeria and Niger, as well as other countries that are taking in refugees as well as partners, for their efforts at resolving the humanitarian crisis. The Authority decides to create a special solidarity fund for the victims of terrorism and calls on the international community to support the implementation of the “Buhari Plan” for the rehabilitation and reconstruction of North- East Nigeria.

34. The Authority notes that His Excellency President Yahya Jammeh had initially accepted the results announced by the Independent Electoral Commission on 2 December 2016 and congratulated the new President-elect before changing his mind based on corrections to the initial results by the Electoral Commission which however did not alter the outcome of the election.
