FIFTH COMMITTEE
Agenda item 98

PROPOSED PROGRAMME BUDGET FOR THE BIENNIAL 1980-1981

Section 28B. Office of Financial Services

United States: draft decision

The General Assembly decides to:

Request the Secretary-General to give priority to the implementation of the recommendation of the Board of Auditors as endorsed by the ACABQ calling for improvements in the United Nations financial management systems and especially to (a) strengthen the Controller's role so that he can provide functional leadership, guidance and central direction on all financial functions, (b) establish as soon as possible a systems group to deal exclusively with the over-all system of financial management and control and (c) to produce the financial manual for which special funds have been provided.
