LETTERS OF TRANSMITTAL

31 March 1990

Sir,

Pursuant to regulation 11.4 of the Financial Regulations of the United Nations, as amended by General Assembly resolution 3192 (XXVIII) of 18 December 1973, and rule 213.3 of the Financial Rules of the United Nations Environment Programme, I have the honour to transmit the financial report and accounts of the Fund of the United Nations Environment Programme including associated trust funds and other related accounts for the biennium 1988-1989 ended 31 December 1989, which I hereby approve. The financial statements have been certified as correct by the Acting Assistant Executive Director, Office of the Environment Fund and Administration.

Copies of this financial report and accounts are also being transmitted to the Advisory Committee on Administrative and Budgetary Questions.

Accept, Sir, the assurances of my highest consideration.

(Signed) Mostafa K. TOLBA  
Executive Director

The Chairman of the Board of Auditors  
United Nations  
New York, N.Y. 10017  
United States of America

25 June 1990

Sir,

I have the honour to transmit to you the financial statements of the Fund of the United Nations Environment Programme for the biennium 1988-1989 ended 31 December 1989, which were submitted by the Executive Director. These statements have been examined and include the audit opinion of the Board of Auditors.

In addition, I have the honour to present the report of the Board of Auditors with respect to the above accounts.

Accept, Sir, the assurances of my highest consideration.

(Signed) O. T. PREMPEH  
Auditor-General of Ghana  
and Chairman of the  
United Nations Board of Auditors

The President of the General Assembly  
of the United Nations  
New York, N.Y.

I. FINANCIAL REPORT FOR THE BIENNIUM 1988-1989 ENDED  
31 DECEMBER 1989

Introduction

1. The Acting Assistant Executive Director, Office of the Environment Fund and Administration, has the honour to submit herewith the financial report, together with the accounts of the Fund of the United Nations Environment Programme, including associated trust funds and other related accounts, for the biennium 1988-1989 ended 31 December 1989. The accounts consist of 12 statements supported by 6 schedules, as well as the notes to the financial statements. These accounts were transmitted to the Board of Auditors on 31 March 1990 in accordance with financial regulation 11.4.
2. The interim accounts for the first year of the biennium 1988-1989 were presented to the Governing Council at its fifteenth session. The Board of Auditors conducted an interim audit of these accounts and did not report to the Advisory Committee on Administrative and Budgetary Questions any situation that should be brought to the attention of Member States. 1/
3. Comparative figures for the biennium 1986-1987 have been reflected in the financial statements. The size of this financial report has been kept to the minimum in accordance with the guidelines of the United Nations.
4. The financial statements and schedules, as well as the notes thereon, are to be considered an integral part of the financial report.

Levels of appropriations, allocations/allotments,  
expenditures and commitments

5. The Governing Council, in its decision 14/36, paragraphs 9 and 10, of 10 June 1987, approved for 1988-1989 a level of appropriation for Fund programme activities of \$60,000,000 and a level of appropriation for the Fund programme reserve of \$2,000,000. By its decision 14/35, paragraph 6, of 16 June 1987, the Governing Council also approved an appropriation of \$25,846,300 for the programme and programme support costs budget.
6. The total appropriations, allocation/allotments and expenditure for the biennium 1988-1989 were as follows:

---

1/ Official Records of the General Assembly, Twenty-ninth Session, Supplement No. 31 (A/9631 and Corr.2, p. 136, item 73, subpara. (h)).

	<u>Appropriations</u>	<u>Allocations/ allotments issued</u>	<u>Expenditures</u>	<u>Unexpended appropria- tions</u>	<u>Unexpended allocations/ allotments</u>
Fund programme activities	60 000 000	55 288 000	43 799 282	11 200 718	6 488 718
Fund programme reserve	2 000 000	2 000 000	1 389 789	610 211	610 211
Programme and programme support costs	<u>25 846 300</u>	<u>24 690 000</u>	<u>23 092 221</u>	<u>2 754 079</u>	<u>1 597 779</u>
<b>Total</b>	<u><u>87 846 300</u></u>	<u><u>81 978 000</u></u>	<u><u>73 281 292</u></u>	<u><u>14 565 008</u></u>	<u><u>8 696 708</u></u>

### Regular budget of the United Nations

7. The total revised appropriations for the biennium 1988-1989 from the regular budget of the United Nations to meet part of the costs of the secretariat of the United Nations Environment Programme established under resolution 2997 (XXVII) of 15 December 1972, as approved by the General Assembly in its resolution 43/218 of 21 December 1988, were \$10,591,300. Total expenditure incurred for the biennium 1988-1989 was \$10,169,894 consisting of disbursements of \$9,831,977 and unliquidated obligations of \$337,917 against a total allotment of \$10,214,900. Details of these expenditures may be found in the financial report and audited financial statements of the United Nations. 2/ They are not considered further in this report.

2/ Ibid., Forty-fifth Session, Supplement No. 5 (A/45/5), vol. I.

## II. REPORT OF THE BOARD OF AUDITORS

### Introduction

1. As required by General Assembly resolution 74 (1) of 7 December 1946 and article XIV of the Financial Rules of the United Nations Environment Programme (UNEP), the Board of Auditors has audited the accounts of the Fund of UNEP for the biennium ended 31 December 1989.
2. The examination was conducted in accordance with article XII of the Financial Regulations of the United Nations and the annex thereto and with the common auditing standards adopted by the Panel of External Auditors of the United Nations, the specialized agencies and the International Atomic Energy Agency. The examination was conducted at UNEP headquarters in Nairobi.
3. During the biennium under review, the Board of Auditors continued its practice of reporting the results of specific audits and issuing management letters containing detailed audit observations to the Administration. This practice has helped to maintain a continuing dialogue with the Administration.
4. The following are the most significant matters arising from our examination during the biennium. We have discussed these matters with the Administration, whose responses are incorporated where appropriate.
5. The present report is divided into two parts, covering the audit of financial statements and management issues, respectively.

### Summary of recommendations

6. We recommend that the following corrective actions, presented in order of priority, be taken:
  - (a) Adequate competition in procurement should be encouraged in order to provide a greater latitude of choice and lower costs. In addition, suppliers with poor performance records should not be considered for future awards (see paras. 24 and 27);
  - (b) Efforts to monitor timely submission of project expenditures should continue so that financial statements will reflect all project expenditures in the financial period (see paras. 12-14);
  - (c) A standard advice form, which would indicate, inter alia, the date of deposit, name of donor, amount and purpose, should be introduced to facilitate the prompt accounting for contributions (see para. 34);
  - (d) Existing procedures should be further strengthened in order to ensure the timely submission of travel claims and to facilitate the liquidation of travel advances (see paras. 38 and 39).

## Summary of findings

7. Two implementing agencies that had received a total cash advance of \$36,510.06 failed to submit their project expenditures for incorporation into the financial statements for the biennium 1988-1989 (see paras. 12 and 13).
8. The procurement process was not always characterized by adequate competition. Long delays were also noted in the delivery of goods for which payments had been made (see paras. 21 and 26).
9. Extra rental costs were incurred as a result of difficulties which UNEP faced in securing authorization from the appropriate authorities for the clearance of goods from the ports (see paras. 30 and 31).
10. Our review of contributions records disclosed that factors such as late receipt of credit advices, inadequate information as to the identity of the contributor and the purpose of the deposit generally inhibited prompt recording and acknowledgement of contributions (see para. 33).
11. A few instances of delays in the submission of travel claims after the completion of travel led to untimely liquidation of travel advances (see paras. 36 and 37).

## Part I: Financial statements

### Reporting project expenditures by executing agencies

12. Our review of project accounts indicated that the requirement that co-operating agencies having ongoing projects with UNEP should submit quarterly expenditure reports on cash advances received was not adhered to in all cases. We observed from note 3 to the financial statements that two supporting organizations that held between them a total cash advance of \$36,510.06 failed to report their project expenditures as at 31 December 1989.
13. There was, however, an improvement in the reporting of project expenditures during the present biennium owing largely to timely follow-up action by the Administration. By comparison, project expenditure amounting to \$243,530.70 was not reported in the previous biennium. The Administration gave assurances that it would continue with its efforts to ensure timely submission and accounting for project expenditures within the financial period.
14. We recommended, and the Administration agreed, that efforts to further improve monitoring procedures should be continued in order to ensure regular and timely submission of project expenditures so that the financial statements would embody all project expenditures within the financial period.

## Liquidity position

15. The following table gives the liquidity position of the Environment Fund:

	<u>1984-1985</u>	<u>1986-1987</u>	<u>1988-1989</u>
Excess of income over expenditure	<u>734 709</u>	<u>3 313 520</u>	<u>4 220 789</u>
Assets	51 326 303	54 138 935	71 391 394
Liabilities	<u>29 987 761</u>	<u>28 459 562</u>	<u>40 839 135</u>
Fund balance	<u>21 338 542</u>	<u>25 679 373</u>	<u>30 552 259</u>
Liquidity ratio	1.7	1.9	1.7

16. As reflected in statement I, the total expenditure of \$73.3 million reduced the income of \$77.5 million to \$4.2 million. This surplus shows an increase of 27.4 per cent over the surplus realized for the previous biennium. As shown above, the organization's assets will be able to accommodate its liabilities by 1.7 times.

17. As at 31 December 1989, the total cash balance held in banks in favour of UNEP amounted to \$41.5 million as against current liabilities totalling \$10.4 million made up of accounts payable (\$0.8 million), advances by co-operating agencies (\$3.7 million) and unliquidated obligations (\$5.9 million).

18. The liquidity position of UNEP at the end of the biennium was therefore favourable. However, included in the total cash of \$41.5 million held in banks was a non-convertible currencies component of \$11.5 million, which shows an increase of 23.4 per cent over the previous year's figure and 48 per cent over that of the biennium 1984-1985.

19. The Administration explained that the non-convertible currency component in the accounts appears to be rising, despite its utilization, because of the steady increase in the value of that particular currency over the United States dollar during the period.

## Part II: Management issues

### Procurement

20. Our review of the procurement system disclosed the following lapses that appeared to weaken effective procurement action.

#### Restrictive procurement practices

21. The procurement process was not always characterized by adequate competition as required by United Nations financial rule 110.18. We noted instances where requesting offices sometimes precluded bidding by making their own selection of vendors. In one case, a requisitioner rejected a vendor selected on a competitive basis by the Tender Committee in favour of a vendor of his choice.

22. Furthermore, a vendor raised his original quotation by 15 per cent as a result of the delay on the part of the requesting office in providing materials needed for the contract to commence. In view of the fact that the variation exceeded 10 per cent of the original order, a recourse to fresh bidding would have been desirable in order to provide reasonable assurances that the increased contract price was competitive.

23. We recognize that for services, supplies and equipment of a technical nature the views of the requesting offices in matters of specifications and vendor selection should be obtained and respected. However, the names of recommended vendors should always be added to the short list of potential vendors to be maintained by both the user departments and the Procurement Unit.

24. We recommended that UNEP should encourage adequate competition in procurement to provide a greater latitude of choice and lower prices.

25. The Administration acknowledged our recommendation. It explained, however, that contracts for the purchase of rental services, supplies and other requirements are issued in line with United Nations financial rule 110.18 after competitive bidding. For services, supplies and equipment of a highly technical nature the views of the requesting offices on matters of specifications and the selection of suitable vendors are called for and provided. The names of vendors recommended by requisitioners are in most cases added to the short list of potential bidders.

#### Delays in the delivery of goods

26. Although firm delivery dates were given by vendors on quotations and purchase orders, our review indicated several instances of both inordinate delays in the supply of goods and partial deliveries. We noted that certain payments had been made in advance of delivery of goods in order to meet the requirements of suppliers.

27. We recommended that:

(a) As far as practicable, payments for suppliers should only be made against actual delivery;

(b) The present monitoring procedures for the follow-up of outstanding vendor deliveries should be strengthened;

(c) Suppliers with poor performance records should not be considered for future awards.

28. In accepting our recommendations, the Administration explained that the delay in the delivery of goods and services was a chronic problem that appeared to defy solution. The Administration stated that UNEP had very little local choice and, being away from the major world markets, it is always at the mercy of the suppliers. It was explained that only in exceptional cases were payments made in advance of delivery when suppliers failed to accept payments upon delivery and when other competitive suppliers were not available. On the problem of short deliveries, the Administration said that the practice had been to pursue the supplier and ensure that the items were supplied or a credit note was issued to cover the over-payment.

29. The Board urges the Administration to persist in its efforts to ensure the timely delivery of goods and services by its suppliers.

## Clearance of goods at ports

30. Avoidable rental charges were incurred that resulted from the untimely clearance of goods from ports. The delays were attributable partly to the time spent in obtaining approvals to clear the goods duty free and partly to delays on the part of the clearing agent.

31. The Administration explained that much of the delay related to the time spent in securing duty free clearance from the appropriate authorities for each consignment regardless of value. However, extra costs have been identified that were incurred in 1989 as a result of a delay caused by the clearing agent, and he has been requested to reimburse UNEP for such costs.

32. While extra costs arising from the negligence of the clearing agent should be borne by him, we recommend that a way should also be found to facilitate the processing of the tax exemption authorization.

## Cash management

### Factors inhibiting the prompt recording of contributions

33. From our examination of contributions records we observed that, although UNEP had requested donors to provide adequate information on their contributions regarding purpose, date and account credited, those details were not provided in all cases. UNEP, therefore, had to send cable inquiries to Chemical Bank, New York, requesting additional information. In some specific cases, the cable responses failed to give the required details, thus causing further delay in the issuance of receipts for the deposits.

34. In order to facilitate the accounting, acknowledgement and utilization of contributions, we recommended the introduction of a "standard advice form", which should indicate, inter alia, the date of deposit, name of donor, amount and purpose of the contribution. Donors should be encouraged to complete the form and forward it with their contributions.

35. The Administration agreed to suggest the use of the standard advice form when soliciting contributions from donors in the future. It also stated that the recent introduction of "test key" arrangements with outside banks and the repeated requests to donors to provide adequate information on their contributions had greatly assisted in ensuring prompt recording of contributions and resulted in a reduction in the number of cases where the issuance of receipts had to be delayed.

## Travel

### Submission of travel claims

36. Contrary to the requirements of Administrative Instruction ST/AI/257 we noted a few instances of delays in the submission of travel claims long after the completion of travel, which resulted in delays in the liquidation of travel advances. In certain cases, new advances were granted to staff members who had not liquidated their prior advances.

37. Furthermore, owing to inadequate review, entries on the payee cards disclosed incorrect balances, which suggested the need for regular reconciliation of entries with those in the ledger.

38. We recommended the strengthening of the present monitoring procedures to ensure the timely liquidation of travel advances.

39. Our recommendation was accepted and we acknowledge that the Administration has since issued an information circular to all UNEP staff members reminding travellers of United Nations policies and procedures on timely submission of claims and the recovery of outstanding travel advances.

#### Implementation of financial rule 114.1

40. As requested by the General Assembly in its resolution 44/183 of 19 December 1989, the Board reviewed the implementation of that rule. Our review of receivables written off during the biennium disclosed that existing procedures to deal with breaches of financial discipline, although slow, appeared to be quite adequate and effective. However, cases drag on for years until a final decision is taken, usually by the United Nations Administrative Tribunal. In general, as a result of privileges accorded United Nations staff members and the small amounts involved in such cases, recourse to court action is usually not considered appropriate.

41. A staff member is dismissed if financial improprieties are established against him or her. In many cases, recoveries of substantial amounts owed to United Nations organizations are not possible because the United Nations Joint Staff Pension Fund's regulations do not permit assignment rights to a third party. Without the co-operation of the staff member, therefore, significant amounts due will become uncollectable and will finally have to be written off. A review of this specific Fund regulation to allow recoveries from the Fund of adequately investigated and confirmed staff indebtedness may be necessary.

42. The Administration concurred with our observations and said it had to write off \$41,343.08 owed by a former staff member as its efforts to recover the amount from the Fund were not successful because the United Nations Administrative Tribunal had handed down a decision unfavourable to UNEP. The Administration was in agreement with us on the need to review the specific regulation of the Fund to allow recoveries from the Fund because of staff indebtedness.

#### Write-off of losses of cash and receivables

43. In accordance with financial rule 110.14, the Administration informed the Board that during the biennium 1988-1989, six uncollectable receivables amounting to \$4,565.71 and an amount of \$41,343.08 owed by a former staff member were written off.

Comments on matters dealt with in the report on the  
biennium 1986-1987

44. Matters contained in our 1986-1987 report 1/ have either been dealt with to our satisfaction or have been mentioned again in the present report.

Acknowledgement

45. The Board of Auditors wishes to express its appreciation for the co-operation and assistance extended by the Executive Director of UNEP, his officers and members of their staff.

### III. AUDIT OPINION

We have examined the following appended financial statements, numbered I to VII, properly identified, and relevant schedules of the Fund of the United Nations Environment Programme for the financial period ended 31 December 1989. Our examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as we considered necessary in the circumstances.

As a result of our examination, we are of the opinion that the financial statements present fairly the financial position as at the end of the period and the results of its operations for the period then ended.

The financial statements were prepared in accordance with the stated accounting principles, which were applied on a basis consistent with that of the preceding financial period. The transactions were in accordance with the Financial Regulations and legislative authority.

a/ Secretariat of the Southern African Development Co-ordination Conference.

b/ Global Resource Information Data Base.

c/ This excludes the 31 December 1987 Fund balance of \$6,606 in respect of the Technical Co-operation Trust Fund for provision of short-term experts to developing countries, refunded to the donor on the closure of the Trust Fund.

- (1) Technical Assistance Trust Fund for an integrated pilot project on environmental management and protection of Andean eco-systems.
- (2) Trust Fund to provide experts to UNEP policy response options related to climate change.
- (3) Establishment of a network for industrial environmental and raw material management.
- (4) Trust Fund to support the clearing house mechanism through provision of consultancies on strategies for dealing with serious environment problems.
- (5) Trust Fund to provide consultancies to developing countries.
- (6) Trust Fund to provide experts to the secretariat of the Southern African Development Co-ordination Conference.
- (7) Trust Fund for the control of environmental health hazards and promotion of chemical safety.
- (8) Trust Fund for activities in developing countries on environmental awareness and machinery.
- (9) Trust Fund to provide experts to UNEP ozone secretariat.
- (10) Trust fund for protection of the ozone layer under the Vienna Convention and Montreal Protocol.
- (11) Trust Fund for the establishment of a Global Resource Information Data Base Centre in Arendal, Norway.
- (12) Trust Fund to provide experts to the UNEP GRID (Global Resource Information Data Base).

Notes to the financial statements

**Note 1. Summary of significant accounting policies**

The following are the significant accounting policies of the United Nations and the United Nations Environment Programme:

(a) The accounts are maintained in accordance with the Financial Regulations of the United Nations adopted by the General Assembly, the rules formulated by the Secretary-General as required under the regulations, including the Financial Rules of the Fund of the United Nations Environment Programme, specific decisions of the Governing Council of UNEP and administrative issuances, and in conformity with generally accepted accounting principles.

The United Nations and the United Nations Environment Fund following the International Accounting Standard 1 on the disclosure of accounting policies, as modified and adopted by the Consultative Committee on Administrative Questions at its fifty-fourth session;

(b) The financial statements are prepared on the historical cost basis of accounting and have not been adjusted to reflect the effects of changing prices for goods and services;

(c) Fund accounting. The accounts are maintained on a "fund accounting" basis and each fund is maintained as a distinct financial and accounting entity with a separate self-balancing double-entry group of accounts. Separate financial statements are prepared for each fund or for a group of funds of the same nature;

(d) The financial period of the Organization is a biennium and consists of two consecutive calendar years;

(e) The income and expenditure and assets and liabilities are recognized on the accrual basis of accounting;

(f) Project expenditures with respect to UNEP projects undertaken by co-operating agencies and supporting organizations are recorded in the UNEP accounts on the basis of actual expenditure of funds reported by them to UNEP. Since 1979, UNEP also recognizes as expenditures the unliquidated obligations of co-operating agencies. The unspent balances of the remittances held by agencies and organizations are recorded as advances in the UNEP accounts;

(g) Translation of currencies. The accounts of the Organization are presented in United States dollars. Accounts maintained in other currencies are translated into United States dollars at the time of the transaction at rates of exchange established by the Controller of the United Nations. In respect of such currencies, the financial statements reflect the cash, investments, unpaid pledges and current accounts receivable and payable in currencies other than United States dollars, translated at the applicable United Nations rates of exchange in effect as at the date of the statements. Differences arising from the conversion of currencies at the United Nations rate of exchange are accounted for as gain or loss on exchange. In accordance with rule 205.2 of the Financial Rules of the Fund, losses and gains on exchange arising from the payment of voluntary contributions from Governments are recorded as a credit or debit to such contributions;

(h) Contributions. Pledges are recorded as income on the basis of a written commitment by prospective donors to pay monetary contributions at a specified time or times. Pledges received for future years are recorded as deferred income;

(i) Investments. Funds on deposit in interest-bearing bank accounts, certificates of deposit, time deposits and call accounts are shown in the statements of assets and liabilities as cash;

(j) Deferred charges. Deferred charges comprise expenditure items which are not properly chargeable in the current financial period and which will be charged as expenditure in a subsequent financial period. For balance sheet statement purposes, only that portion of the education grant advance which is assumed to pertain to the scholastic year completed as at the date of the financial statement is shown under deferred charges. The full amount of the advance is maintained in the accounts receivable from staff members until such time as the staff member produces the required proof of entitlement to the education grant, at which time the budgetary account is charged and the advance recovered;

(k) Fixed assets. Furniture, equipment and other non-expendables are not included in the assets of UNEP. Acquisitions are charged against the appropriate budget accounts in the year of purchase;

(l) Contingencies. No provision is made in the Environment Fund for repatriation grant entitlements. However, provision to meet contingent liabilities for compensation payments under appendix D to the Staff Rules of the United Nations for personnel financed under trust funds and the Environment Fund has been made and is calculated on the basis of 1 per cent of net base pay;

(m) Miscellaneous income:

- (i) Refunds of expenditures charged to prior financial periods are credited to miscellaneous income;
- (ii) Monies accepted in respect of which no purpose is specified are treated as miscellaneous income;
- (iii) Uncashed cheques one year from their date of issuance are credited to miscellaneous income;
- (iv) The proceeds from the sale of surplus property are credited to the miscellaneous income of the respective funds;

(n) Trust Funds. The Environment Funds follows the general provisions of the Secretary-General's bulletin on the establishment and management of trust funds (ST/SGB/188) and also its supporting administrative instructions, document ST/AI/285 and ST/AI/286, although as indicated in paragraph 3 of document ST/SGB/188, that bulletin does not apply to such funds as the Fund of the United Nations Environment Programme, which are subject to the administrative authority of their executive heads.

**Note 2. Utilization of non-convertible currencies**

Expenditures on Fund programme activities during the biennium 1988-1989 (schedule 1.2) amounting to \$48.8 million included expenditures of \$9.5 million in non-convertible currencies made up of:

	<u>Equivalent of millions of United States dollars</u>
Expenditures reported by supporting organizations	7.4
Expenditures undertaken through co-operating agencies	1.0
Payments to project staff, reimbursable	<u>1.1</u>
Total	<u><u>9.5</u></u>

In addition, there were expenditures in non-convertible currencies in connection with programme and programme support staff costs equivalent to \$0.2 million. Total use of non-convertible currencies was therefore the equivalent of \$9.7 million. The currencies involved were Chinese yuanrenminbi, Csechoslovakian koruny, German Democratic marks, Hungarian forint, Polish zloty and Union of Soviet Socialist Republics roubles.

As at 31 December 1989, the non-convertible currencies cash balance held in banks for account of UNEP amounted to \$11.5 million (statement II and schedule 2.2).

**Note 3. Financial reporting by co-operating agencies and supporting organizations**

All co-operating agencies having UNEP ongoing projects reported their fourth quarter expenditures as at 31 December 1989, but two support organizations (non-governmental organizations and government institutions) holding cash advances of \$36,510.06 in total did not report their expenditures as at 31 December 1989. The two supporting organizations were:

	<u>United States dollars</u>
(a) Government of Mali (April-December 1989)	14 010.06

Hospitality	54 212	1 000	55 212
UNEP participation costs (external projects)	1 955 934	435 557	2 391 491
Total	<u>45 454 673</u>	<u>4 734 398</u>	<u>50 189 071</u>

**Note 10. Write-off of losses of cash and receivables**

In accordance with financial rule 110.14, and after a full investigation, the writing off of six uncollectable receivables amounting to \$4,565.71 was approved by the Assistant Secretary-General, Office of Financial Services, for the biennium 1988-1989. In addition, the Controller and the Secretary-General have approved write-off of \$41,343.08 owed by a former staff member. In each case it was determined in the light of the facts known at the time that (a) the responsibility for the loss could not be fixed and attached to any official of the United Nations Environment Programme, (b) every effort had been made to collect the amount and (c) further collection efforts would be fruitless.
